Body Length:

0.071 inches

Body Width:

0.044 inches

Body Height:

0.040 inches

Inclosure Type:

Hermetically sealed

Rating Method:

Electrical single component single winding

Dc Resistance Rating In Ohms:

0.220 single component single winding

Product Name:

Chip inductor

Special Features:

Core material: ceramic; weight: 3.5-3.7 mg; tolerance: 5%

Terminal Type And Quantity:

2 bonding pad

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
