Inductance Rating:

47.0 microhenries all components all primary

End Application:

V-22 aircraft

Features Provided:

Rohs directive compliance

Dc Resistance Rating In Ohms:

95.0 all components all primary

Product Name:

Semiconductor device

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A058b0
