### **Overall Length:**

0.195 inches

# **Overall Width:**

0.150 inches

# **Overall Diameter:**

0.135 inches

#### **Product Name:**

Chip inductors - 1812ls serie (4532)

## **Special Features:**

Core material - ferrite; terminations - rohs complaint silver - palladium-platinum-glass frit; ambient temperature minus 40 to 85 degrees c with irms current, 85 to 100 degrees c with derated current; storage temperature component: minus 40 to 100 degrees c; dcr ma (ohms) 38.0; test frequency (mhz) 0.79; percent tolerance 5; inductance 680

#### Shelf Life:

N/a

#### Unit Of Measure:

--

## Demilitarization:

No

## Fiig:

A058b0
