Body Length:

6.86 millimeters

Body Width:

6.47 millimeters

Body Height:

3.00 millimeters

End Application:

Radar transponder

Winding Quantity:

1 single component

Inclosure Type:

Fully enclosed

Rating Method:

Electrical single component single winding

Product Name:

Coil radio frequency

Terminal Type And Quantity:

2 bonding pad

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
