Overall Length:

0.090 inches

Overall Width:

0.068 inches

Overall Diameter:

0.020 inches

Product Name:

Chip inductors - 0805cs series (2012)

Special Features:

Average current for a 15 degrees c rise above 250 degrees c ambient; terminations: silver-palladium-platinum; 8mm tape width; inductance 120 @ 150 mhz; q min: 50 @ 250 mhz, color - green; tolerance j = 5 %; dcr maximum (ohms) 0.51; srf type 1100; operating temperature range minus 40 to 125 degrees c; electrical specification at 250 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
