Overall Length:

0.090 inches

Overall Width:

0.068 inches

Overall Diameter:

0.20 inches

Product Name:

Chip inductors - 0805cs series (2012)

Special Features:

Terminations: silver-palladium-platinum; 8 mm width; inductance 180 @ 100 mhz; q min: 50 @ 250 mhz; color - violet; tolerance j = 5%; dcr maximum (ohms) 0.64; srf typ (mhz) 920; operating temperature: minus 40 to 125 degrees c; electrical specifications at 250 degrees c; average current for a 150 degrees c rise above 250 degrees c ambient

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
