Reliability Indicator:

Not established

Overall Length:

0.550 inches

Overall Width:

0.670 inches

Frequency Rating:

300.0 hertz all components

End Application:

Voice/data recorder 174521-04-01

Inclosure Type:

Fully enclosed

Mounting Method:

Slot all groupings

Rating Method:

Electrical all components all control

Product Name:

Low profile audio transformer

Special Features:

5% rated pater; 200 v rms dielectric strength; -55c to 130 operating temp

Terminal Type And Quantity:

8 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
