Body Length:

3.187 inches

Body Width:

1.437 inches

Body Height:

4.229 inches

End Application:

Type no. 0-1031/urc

Mounting Configuration:

One 0.144 in. Diameter hole centrally located in top of cover

Special Markings:

Marked caution this oscillator is not interchangeable with the 70h-13 /see maintenance instructions/ 70h-13a

Material:

Steel, corrosion resisting

Material:

Stainless steel

Fsc Application Data:

1. Oscillator, radio, except navigation, airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T23700
