Overall Length:

9.060 inches

Overall Height:

3.200 inches

Overall Width:

2.900 inches

Component Type And Quantity:

1 case and 1 coil and 1 cover and 1 crystal and 1 resistor and 1 transistor

Special Features:

Major components: chassis mounting board 1; mounting method and configuration: chassis; three bolts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
