**Overall Length:**

9.060 inches

**Overall Height:**

3.200 inches

**Overall Width:**

2.900 inches

**Component Type And Quantity:**

1 case and 1 coil and 1 cover and 1 crystal and 1 resistor and 1 transistor

**Special Features:**

Major components: chassis mounting board 1; mounting method and configuration: chassis; three bolts

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A5110
