Overall Length:

10.125 inches

Overall Height:

1.312 inches

Overall Width:

6.250 inches

Component Type And Quantity:

1 capacitor and 1 diode and 1 inductor and 1 lamp and 1 panel and 1 relay and 1 resistor and 1 switch and 1 transformer and 1 transistor

Special Features:

Major components: printed circuit board; mounting method and configuration: rack, plug-in mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A51110
