Overall Length:
10.125 inches
Overall Height:
1.312 inches
Overall Width:
6.250 inches
Component Type And Quantity:
1 capacitor and 1 diode and 1 inductor and 1 lamp and 1 panel and 1 relay and 1 resistor and 1 switch and 1 transformer and 1 transistor
Special Features:
Major components: printed circuit board; mounting method and configuration: rack, plug-in mounted
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A51110
