Overall Length:

4.000 inches

Overall Height:

0.531 inches

Overall Width:

2.250 inches

End Application:

Type no. 5-274/frr

Component Type And Quantity:

5 capacitor

Special Features:

Wmajor components: inductance units 2; phenolic base 1; powered iron cores 2; shield can 1; usage design: beat frequency oscillator; mounting method and configuration: two no. 6-32 threaded holes spaced on 7/8 inch mounting centers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511I0
