Overall Length:

4.125 inches

Overall Height:

1.813 inches

Overall Width:

4.000 inches

Component Type And Quantity:

2 capacitor and 4 fastener and 1 panel and 1 switch

Special Features:

Imounting method and configuration: four pem fasteners, type clm632-2; two pem fasteners at top of panels spaced 3.000 inch center to center, two pem fasteners at bottom of panel 3 inch center to center

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
