Noncrystal Controlled Oscillator - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5955-00-420-0816

Environmental Protection:
Moisture proof
Operating Tempurature Range:
-55.0/+100.0 degrees celsius
Average Life Measurement:
Not rated
Inclosure Type:
Hermetically sealed
Operating Control Method:
Automatic
Installation Design:
Module
Circuit Construction Type:
Solid state
Precious Material And Location:
Terminal surfaces gold
Precious Material:
Gold
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A32200
