**Environmental Protection:**

Moisture proof

**Operating Temperature Range:**

-55.0/+100.0 degrees celsius

**Average Life Measurement:**

Not rated

**Inclosure Type:**

Hermetically sealed

**Operating Control Method:**

Automatic

**Installation Design:**

Module

**Circuit Construction Type:**

Solid state

**Precious Material And Location:**

Terminal surfaces gold

**Precious Material:**

Gold

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A32200
