Body Length:

2.375 inches

Overall Diameter:

1.750 inches

Mode Of Oscillation:

Fundamental

Specified Frequency:

100.000 kilohertz

Operating Temperature Range:

-40.0/+80.0 degrees celsius

Frequency Tolerance For Operating Temperature In Percent:

-0.030/+0.030

Style Designator:

Octal tube base

Reference Number Differentiating Characteristics:

As differentiated by pacsaehg aehh and afga

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A059a0
