**Body Length:**

2.375 inches

**Overall Diameter:**

1.750 inches

**Mode Of Oscillation:**

Fundamental

**Specified Frequency:**

100.000 kilohertz

**Operating Temperature Range:**

-40.0/+80.0 degrees celsius

**Frequency Tolerance For Operating Temperature In Percent:**

-0.030/+0.030

**Style Designator:**

Octal tube base

**Reference Number Differentiating Characteristics:**

As differentiated by pacsaehg aehh and afga

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A059a0
