Overall Length:

2.656 inches

Overall Height:

1.312 inches

Overall Width:

1.500 inches

Component Type And Quantity:

1 capacitor and 1 diode and 1 resistor and 1 transformer and 1 transistor

Special Features:

Mounting method and configuration: plug-in receptacle mounting; seven 0.093 inch diameter mounting holes irregularly spaced

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
