Overall Length:

1.625 inches

Overall Height:

1.250 inches

Overall Width:

1.250 inches

Component Type And Quantity:

1 capacitor and 1 coil and 1 diode and 1 resistor and 1 transistor

Special Features:

Mounting method and configuration: plug-in receptacle mounting; six 0.093 inch diameter mounting holes irregularly spaced; major components: shield can 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
