Overall Length:

3.328 inches

Overall Height:

0.592 inches

Overall Width:

2.328 inches

Component Type And Quantity:

14 capacitor and 6 coil and 20 crystal and 1 diode and 6 resistor

Special Features:

Mounting method and configuration: bolted to center plate; four mounting holes 0.141 inch diameter located 2.062 inch by 3.062 inch centers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
