Overall Length:

0.434 inches

Overall Height:

0.190 inches

Overall Width:

0.241 inches

Unthreaded Mounting Hole Diameter:

0.070 inches single mounting facility

Accommodated Item Securing Device Type:

Friction fastener

Mounting Facility Type And Quantity:

1 unthreaded hole single mounting facility

Material:

Copper alloy

Material Specification:

Qq-b-746, comp a federal specification single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type 1, class 1 federal specification single treatment response

Style Designator:

Irregular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A062a0
