Overall Length:

2.822 inches

Overall Height:

1.437 inches

Overall Width:

1.623 inches

Component Type And Quantity:

2 backplane assembly and 1 bracket and 1 crystal and 1 guide and 2 insulator and 1 oven and 1 printed wiring board and 1 wire

Special Features:

Mounting method: fits into foam filled shock resistant container; major components: insulation 1; tuner, subassembly 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
