**Overall Length:**

4.500 inches

**Overall Height:**

0.750 inches

**Overall Width:**

4.000 inches

**Component Type And Quantity:**

32 capacitor and 6 coil and 1 diode and 24 resistor and 9 transistor

**Special Features:**

Mounting method and configuration: bolted to mounting frame, five 0.173 inch diameter mounting holes irregularly spaced

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A5110
