Overall Length:

4.500 inches

Overall Height:

0.750 inches

Overall Width:

4.000 inches

Component Type And Quantity:

32 capacitor and 6 coil and 1 diode and 24 resistor and 9 transistor

Special Features:

Mounting method and configuration: bolted to mounting frame, five 0.173 inch diameter mounting holes irregularly spaced

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
