Overall Length:

3.000 inches

Overall Height:

0.500 inches

Overall Width:

2.600 inches

Component Type And Quantity:

12 capacitor and 1 crystal and 1 diode and 9 resistor and 1 transistor

Special Features:

Mounting method and configuration: plug-in mounting with irregularly spaced pins; major components: board, printed circuit 1; coil assembly 2; coil, choke 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
