Overall Length:

0.810 inches

Overall Height:

0.500 inches

Overall Width:

0.330 inches

Unthreaded Mounting Hole Diameter:

0.093 inches all mounting facilities

Distance Between Mounting Facility Centers:

0.600 inches all mounting facilities all center groupings

End Application:

An/tps-43e/75

Accommodated Item Securing Device Type:

Spring clip

Mounting Facility Type And Quantity:

2 unthreaded hole all mounting facilities

Special Features:

T.O. 31p3-2tps-43-54; n/h/a oscillator

Material:

Beryllium

Surface Treatment:

Copper and tin

Surface Treatment Specification:

Mil-c-14550 military specification single treatment response and mil-t-10727 military specification single treatment response

Style Designator:

Irregular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A062a0

Mil-std (military Standard):

Mil-c-14550 spec.
