Overall Length:

1.500 inches

Overall Height:

0.500 inches

Overall Width:

1.500 inches

Operating Temperature Range:

-55.0/+200.0 degrees celsius

Average Life Measurement:

Hours

Basic Shape Style:

Rectangular or square

Inclosure Type:

Hermetically sealed

Circuit Construction Type:

Solid state

Frequency Per Channel:

5324.0 kilohertz output channel

Special Features:

Dip, surface mount, flatpack

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
