Overall Length:

8.000 inches

Overall Height:

0.922 inches

Overall Width:

4.550 inches

Basic Shape Style:

Rectangular or square

Inclosure Type:

Partially enclosed

Installation Design:

Module

Circuit Construction Type:

Solid state

Connection Type And Location:

Connector, plug rear and printed circuit rear

Special Features:

Electrostatic sensitive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
