Basic Shape Style:

Rectangular or square

Circuit Construction Type:

Solid state

Switching Rate Per Second:

20

Special Features:

Provides protocol decode at 20mt/s; 4 ghz timing analysis, works with 8 or 16 bit bus; up to 20 mega transfers/sec; single-ended or high voltage differential; different bus transaction decoders

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
