**Features Provided:**

Radioactive material

**Special Features:**

Envelope material: metal; mfg. Class: tr tube contains the radioactive element cobalt 60 whose activity is 0, 7 micro ci maximum (equivalent to 25, 9 kbq)

**Specification Data:**

80131-release 1931 professional/industrial association specification

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A516k0
