Features Provided:

Radioactive material

Special Features:

Envelope material: metal; mfg. Class: tr tube contains the radioactive element cobalt 60 whose activity is 0, 7 micro ci maximum (equivalent to 25, 9 kbq)

Specification Data:

80131-release 1931 professional/industrial association specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A516k0
