

View Online at <https://aerobasegroup.com/nsn/5960-01-108-6636>

Frequency Range:

Between 0.00 megahertz and 30.00 megahertz

Special Features:

Mftr. Classification: tube driver; anode voltage 6kvlc porm five percent, anode current 1.9 amp max, screen voltage 550vlc porm one percent, grid voltage 100vlc porm one percent, filament 6.3vlc 5.6 amp porm five percent, quiescent current less than 3.0 milliamp, pulse 6000.0 watts, gain with 1.5 decibel circuit losses included is 11.0 decibel, pulse width 1.0 to 50.0 microseconds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A516k0
