Overall Length:

54.000 inches

Overall Height:

5.679 inches

Overall Width:

20.000 inches

End Application:

Loran transmitting set, an/fpn-44/45

Mounting Facility Type And Quantity:

1 plug-in single mounting facility

Special Features:

Flexible shatter-resistant lead-impregnated transparent plastic (clear-pb), contains 30 percent lead by weight, non-conductive up to 50000 vdc

Functional Description:

Provide radiation shielding on f-1086 itt electron tube

Material:

Lead and plastic acrylic

Style Designator:

Irregular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
