Overall Length:

10.000 inches

Overall Height:

0.500 inches

Overall Width:

1.560 inches

Circuit Connection Style Designator:

Half-wave 1 phase

Absolute Maximum Current Rating Per Characteristic:

2.00 amperes repetitive peak forward current and 500.00 milliamperes average forward current averaged over a full 60-hz cycle

Special Features:

Terminal type-binding post, spaced 9.500 in. C to c; metal case enclosure; absolute maximum voltage ratings: fwd peak voltage 40,000v/voltage drop dc 2.0v; max rms input voltage 28.2 kvolts; operating temp 0/+65 degrees c

Material:

Silicon

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503h0
