Overall Height:

Between 0.330 inches and 0.505 inches

Internal Configuration:

Junction contact

Electrode Internally-electrically Connected To Case:

Anode

Features Provided:

Hermetically sealed case

Overall Width Across Flats:

Between 0.544 inches and 0.562 inches

Semiconductor Material:

Silicon

Special Features:

Junction pattern arrangement: pnpn

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
