**Overall Length:**

0.445 inches

**Overall Height:**

0.395 inches

**Overall Width:**

0.385 inches

**Operating Temperature Range:**

+0.0/+25.0 degrees celsius

**Circuit Connection Style Designator:**

Bridge 1 phase

**Absolute Maximum Voltage Rating In Volts Per Characteristic:**

50.000 forward voltage, total rms

**Absolute Maximum Current Rating Per Characteristic:**

10.000 amperes peak point current

**Special Features:**

Inclosure feature: plastic case; lead type: resistive; dc output maximum voltage rating; 50.0 volts

**Material:**

Silicon

**Terminal Type And Quantity:**

4 pin

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A503h0
