Overall Height:

0.360 inches

Overall Diameter:

0.625 inches

Internal Configuration:

Junction contact

Electrode Internally-electrically Connected To Case:

Base

Features Provided:

Hermetically sealed case

Semiconductor Material:

Germanium

Special Features:

Junction pattern arrangement: pnp

Terminal Type And Quantity:

3 tab, solder lug

Reference Number Differentiating Characteristics:

Navord od36190

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A110a0
