**Major Components:**

Cylindrical transistors 2; wire leads 3

**Special Features:**

Transistors with to-18 case and center to center distance of 0.250 inches, each transistor has three wire leads with a length of 0.500 inches and sections of heat sink are electrically isolated with epoxy adhesive

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T01200
