Inclosure Material:

Glass

Overall Length:

6.063 inches

Overall Diameter:

0.547 inches

Mounting Method:

Compression

Features Provided:

Hermetically sealed case

Semiconductor Material:

Silicon

Current Rating Per Characteristic:

300.00 milliamperes forward current, average absolute

Terminal Type And Quantity:

2 ferrule

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A110a0
