Overall Length:

12.625 inches

Overall Height:

3.500 inches

Overall Width:

4.500 inches

Operating Temperature Range:

+0.0/+25.0 degrees celsius

Circuit Connection Style Designator:

Bridge 3 phase

Absolute Maximum Voltage Rating In Volts Per Characteristic:

70.0 forward voltage, total rms

Absolute Maximum Current Rating Per Characteristic:

294.000 amperes peak point current

Mounting Method:

Bracket

Material:

Silicon

Terminal Type And Quantity:

2 threaded stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503h0
