Inclosure Material:

Ceramic and metal

Overall Length:

0.820 inches

Overall Diameter:

0.294 inches

Mounting Method:

Compression

Semiconductor Material:

Silicon

Maximum Operating Temperature Per Measurement Point:

70.0 degrees celsius ambient air

Precious Material:

Gold and silver

Terminal Type And Quantity:

2 ferrule

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A110a0
