Overall Length:

2.000 inches

Overall Height:

2.000 inches

Overall Width:

2.000 inches

Circuit Connection Style Designator:

Bridge 1 phase

Mounting Method:

Bracket

Special Features:

Terminal-bus ba (4) ; environmental protection-any acceptable; rms input maximum voltage rating, 142v; dc outputmax current rating, 18 amps; load type-inductive and resistive; max dc output voltage rating, 127v; stack q type 1; four 0.219 wd x 0.469 in. Lg mtg slots on 1.000 x 3.594 in. Mtg ctrs; temp rating 25 degrees c

Material:

Silicon

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A503h0
