Overall Length:

17.000 inches

Overall Height:

2.000 inches

Overall Width:

4.000 inches

Circuit Connection Style Designator:

Half-wave 1 phase

Absolute Maximum Voltage Rating In Volts Per Characteristic:

25000.0 peak inverse voltage

Absolute Maximum Current Rating Per Characteristic:

6.00 amperes forward current, average

Mounting Method:

Flange and unthreaded hole

Special Features:

Consists of removable components boards connected in series, ea w/1 capacitor, 1 diode, and 1 resistor

Material:

Silicon

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A503h0
