Inclosure Material:

Glass

Overall Length:

0.765 inches

Overall Diameter:

0.221 inches

Mounting Method:

Terminal

Features Provided:

Hermetically sealed case

Semiconductor Material:

Silicon

Maximum Operating Temperature Per Measurement Point:

150.0 degrees celsius ambient air

Special Features:

Bandl-x; 6.75g hz; freq range 1.0g to 12.4g maximum hz

Terminal Type And Quantity:

2 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A110a0
