Inclosure Material:

Glass

Overall Length:

Between 0.800 inches and 0.840 inches

Overall Diameter:

0.240 inches

Mounting Method:

Terminal

Features Provided:

Hermetically sealed case

Semiconductor Material:

Germanium

Maximum Operating Temperature Per Measurement Point:

90.0 degrees celsius ambient air

Special Features:

1 snap-on male terminal

Specification Data:

80131-release1428 professional/industrial association specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
