**Overall Length:**

1.938 inches

**Overall Height:**

0.500 inches

**Overall Width:**

0.312 inches

**Operating Temperature Range:**

-55.0/+125.0 degrees celsius

**Circuit Connection Style Designator:**

Bridge 1 phase

**Absolute Maximum Voltage Rating In Volts Per Characteristic:**

500.0 peak inverse voltage

**Absolute Maximum Current Rating Per Characteristic:**

31.00 microamperes forward current, dc

**Mounting Method:**

Unthreaded hole

**Material:**

Silicon

**Terminal Type And Quantity:**

4 insulated wire lead

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A503j0
