Overall Length:

1.938 inches

Overall Height:

0.500 inches

Overall Width:

0.312 inches

Operating Temperature Range:

-55.0/+125.0 degrees celsius

Circuit Connection Style Designator:

Bridge 1 phase

Absolute Maximum Voltage Rating In Volts Per Characteristic:

500.0 peak inverse voltage

Absolute Maximum Current Rating Per Characteristic:

31.00 microamperes forward current, dc

Mounting Method:

Unthreaded hole

Material:

Silicon

Terminal Type And Quantity:

4 insulated wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503j0
