**Special Features:**

Silicon; single phase full wave bridge; 600v peak inverse voltage; 420v rms voltage; 1.5 amp average rectified current at 25 degrees c and 1.05 amp at 100 degrees c; 10 amp recurrent surge current at 25 degrees c; hermetically sealed units; molded case; 0.875 in. Dia; 0.250 in. H; 4 solder stud type terminals 0.137 in. Maximum h; terminals equally spaced on 0.625 in. Diameter circle; One 0.144 in. Diameter unthreaded mtg hole counterbored 0.310 in. Diameter by 0.125 in. Deep through center of case; m55.0 to p150.0 degrees c operating temp; storage temp range: m55.0 to p150.0 degrees celcius

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A503j0
