**Overall Length:**

0.592 inches

**Overall Height:**

0.160 inches

**Overall Width:**

0.500 inches

**Operating Temperature Range:**

-55.0/+100.0 degrees celsius

**Circuit Connection Style Designator:**

Bridge 1 phase

**Absolute Maximum Voltage Rating In Volts Per Characteristic:**

250.0 forward voltage, total rms

**Absolute Maximum Current Rating Per Characteristic:**

150.000 amperes peak point current

**Special Features:**

Environmental protection: corrosion and moisture; inclosure feature: plastic case

**Material:**

Silicon

**Terminal Type And Quantity:**

4 wire lead

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A503h0
